

WISR Safety Training

1. The Bay Alarm call box next to the front door serves as an emergency response service: (1) the blue button, when pressed, directly calls for medical emergency response services; (2) the red button, when pressed, directly calls the fire department.
2. The fire extinguisher is at the rear of the office suite, next to the kitchen sink.
3. The first aid kit is in the bathroom.
4. When going upstairs to the mezzanine, bring your cell phone with you. In case of an emergency, you may need to call for help with your cell phone.
5. In case of natural disaster, take cover under the tables, then evacuate; able bodied people please assist the elderly and the disabled.
6. Children are welcome to WISR and need to be supervised at all times by their parents or guardians.
7. For staff and faculty, when alone and at night, lock yourself in and leave the WISR key in the lock. In the event of an emergency and you're locked in, the WISR key is easily accessible in the lock at the door.
